IT'S A TRUE PASSION

Photography is my hobby and I love it!

When I grab my camera it's because I want to and because it's fun. I love to play around and try out new ideas and techniques taking on assignments where I can challenge myself and develop my skills.

EVERY WHERE I GO...

I see locations and scenes everywhere I go. I notice a single sunbeam shining through a broken window in an abandoned railway station that creates an amazing lighting opportunity to explore with my camera. I turn everyday scenarios into memorable motifs because I stop - and notice the details.

PURPLE & CREATIVE

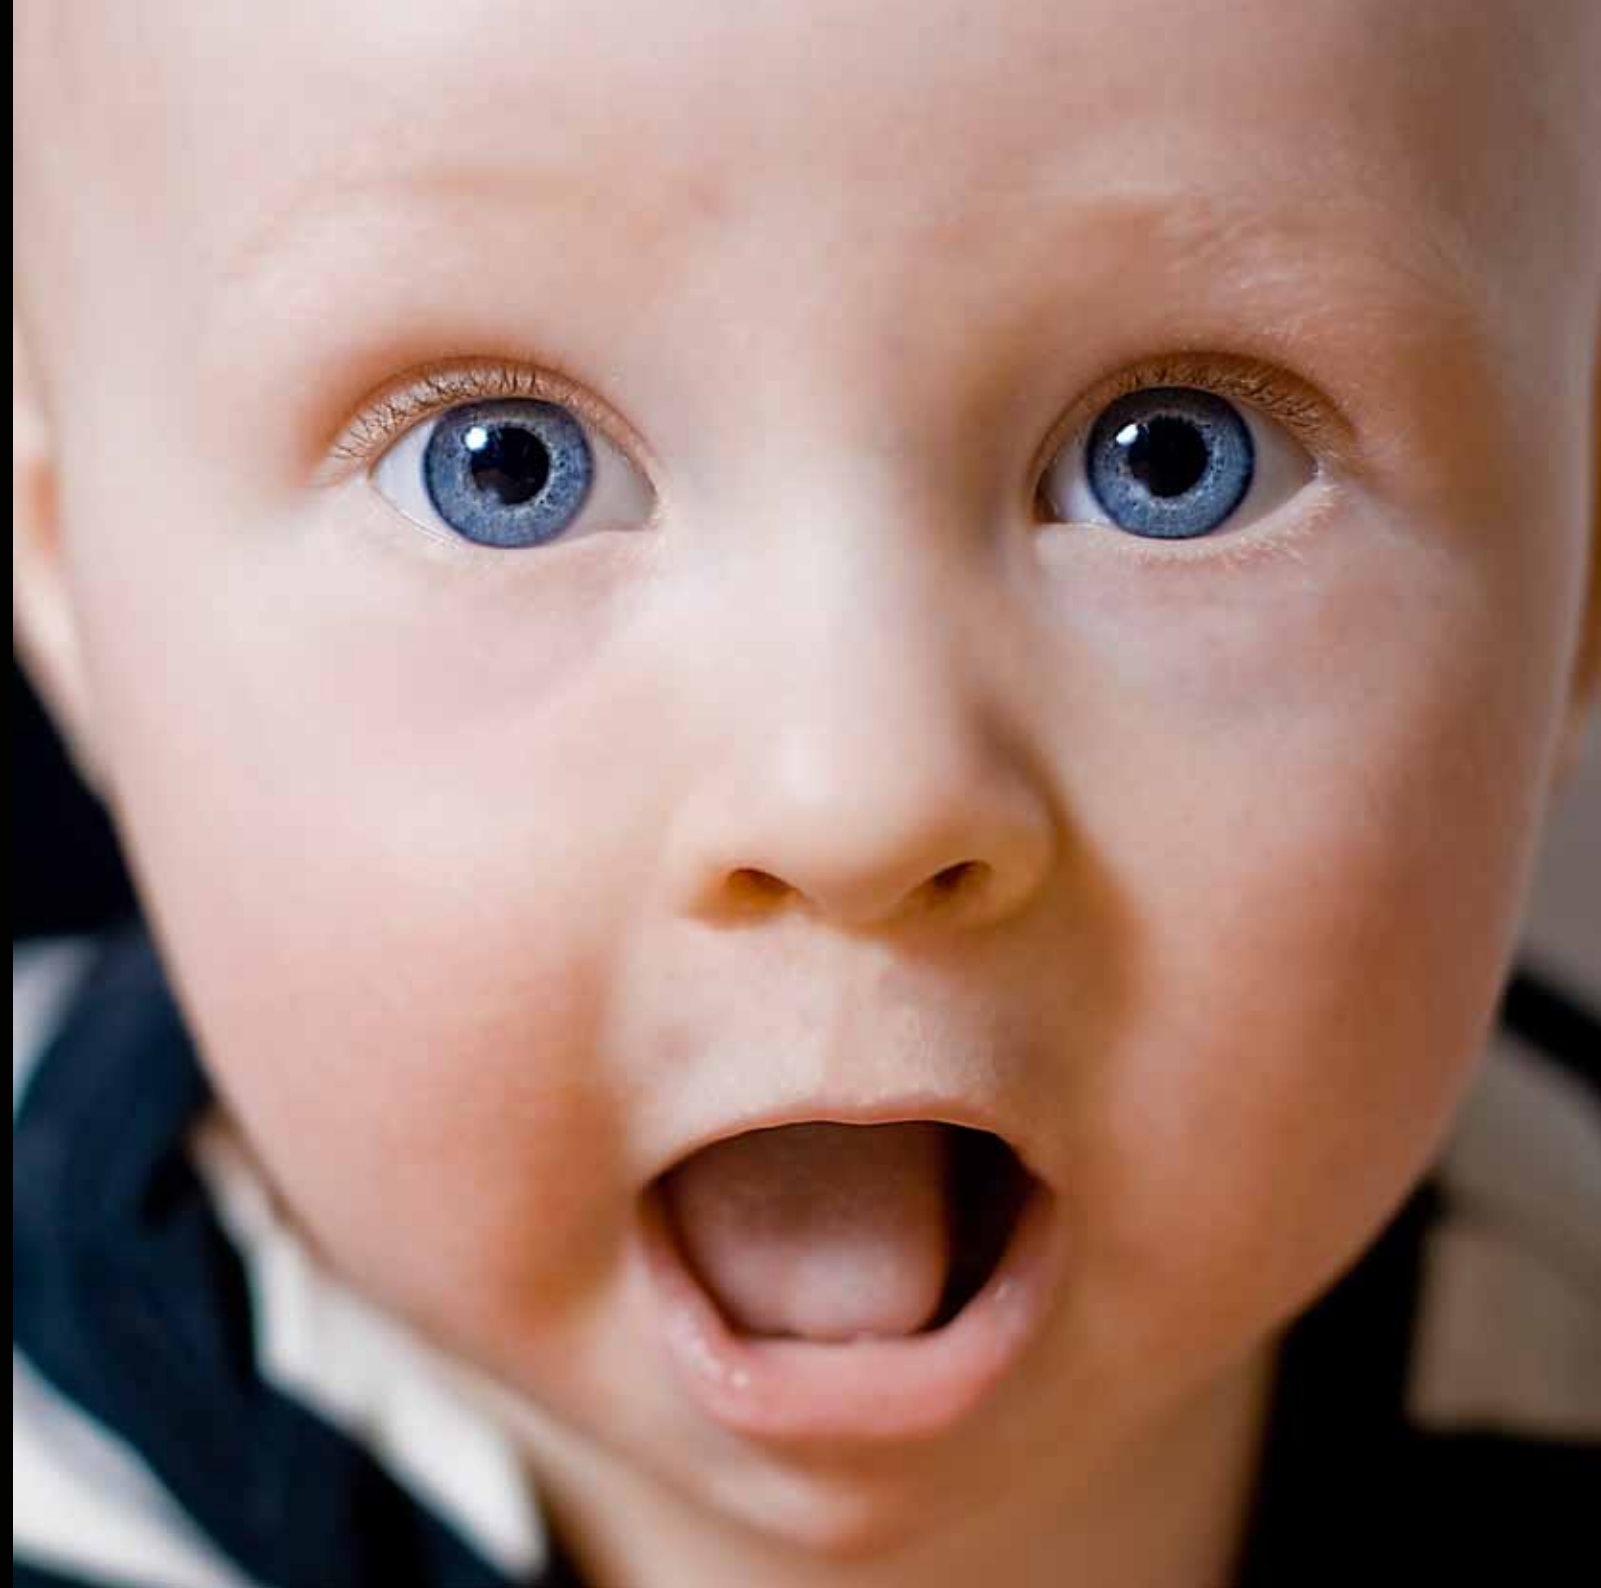

Purple is the color of creativity and therefore the color of my brand "Lilla Ko" which means "Purple Cow".

A purple cow will "pop" and stand out among regular cows - just like the visual work I want to create.

ANNE-LOUISE 3 MONTHS

This curious little star acted as a professional model during the entire photo session.

She smiled and did a great job looking into the camera making lots of wonderful expressions.

And best of all - she didn't cry.

“ MOM'S COMMENT

Wow, just saw the photos... I'm so touch... They are just so great... And the collage: I LOVE IT!!! It is so amazing!!!!!! THANK YOU SO MUCH...

TECHNIQUE

Natural lighting from windows softened with a white reflector.

I used my 50 mm 1.8 still lense with an aveture around 2.2 to increase the depth of field and make the eyes pop and sparkle.

The sharpening was inceased using an unsharp mask filter.
